

Login View

A hand-drawn diagram of a login view. It features a window with a title bar containing three colored circles (red, yellow, grey). Inside the window, the text "username" is positioned to the left of a rectangular text field. Below the text field, there are two buttons: "Create user" on the left and "Login" on the right. Three handwritten annotations with arrows point to these elements: one from the left pointing to the "Create user" button, one from the right pointing to the text field, and one from the right pointing to the "Login" button.

enter name in textField to create user or login

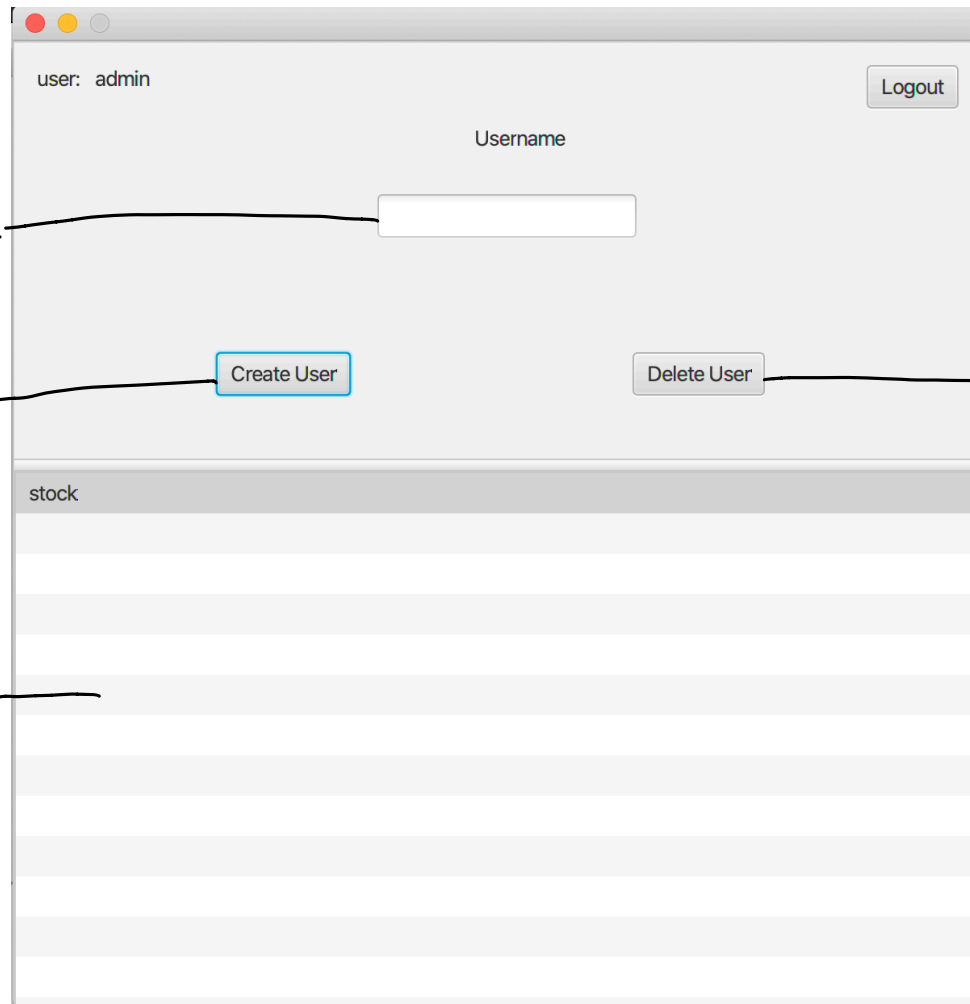

Create user

Login

button to create new user

login as user or admin

Admin View

The image shows a web application interface for an 'Admin View'. At the top left, it says 'user: admin'. At the top right is a 'Logout' button. Below this is a 'Username' label followed by a text input field. In the center, there is a 'Create User' button. To the right of this is a 'Delete User' button. At the bottom, there is a table with a header row labeled 'stock' and several empty rows below it. Handwritten annotations with arrows point to various elements: 'enter username to create' points to the input field; 'create user button' points to the 'Create User' button; 'populates view with users' points to the table; 'logs user out' points to the 'Logout' button; and 'select user to delete' points to the 'Delete User' button.
